**Subject:** One step forward two steps back

Please consider the tarnish you are placing on a State that has worked very hard to move past the textile, small town stereotype of years past. As a resident of downtown Greenville, I can say it is an embarrassment to have people in from other states or countries and try to explain how poor our taxi service is in this town. People are not stupid, whatever dirty pics Vivian has of our mayor must be pretty damn good to keep her monopoly on the license for almost every taxi. No competition breeds the worst of the worst and that is what we have now. Yellow Cab doesn't care about anything but taking advantage of people. Uber will only make the taxi industry stronger with added competition as proven in every industry that has ever been deregulated. I applaud Uber for using their deep pockets to continue to fight for the rights of the good people of this State.

Do you really think your ban will work? No, it will only bring the unethical "Uber impostors" out like Pimps, with no insurance, no background checks, etc. Imagine a horrific event happening on your watch with one of these impostors, now is the chance to prevent before something happens, not point fingers afterwards.

Besides: "Uber is too sophisticated for the SC PSC" is too long for a bumper sticker!!! Take the RED out of Redneck state and think of the taxes you jokers can collect to waste on something else.

Regards,  
Brad Simpson

**Subject:** Uber and RideShare Services

I am writing to express my extreme disappointment in the PSC's actions related to Uber. My experience with Uber, in the Charleston area has far exceeded all the service levels of the taxicab services in the area. Their cars are newer and cleaner, their drivers are polite and well groomed, their pick ups and drop offs are scheduled and timely.

The PSC has only served to placate the old entrenched interest, without due consideration to a far improved, safer, cleaner, timely consumer experience, or to seek alternative mechanisms that seek to better serve the consumer. If NYC can have Uber, why can't a more business friendly, anti-big government state have Uber.

Respectfully submitted

**Subject:** Uber

My name is Brayton Norwood & I am 31 years old. I currently live in Mount Pleasant, SC and I have been an Uber customer for the past 6 months.

I just wanted to let you know how convenient & easy Uber has been to use in the Charleston area. I use Uber at least 2-3 times a week to commute and it has been such a safe ride sharing option. All of their drivers are very professional and the wait time to get a ride is always very minimal. Uber's fares are very affordable compared to taking a regular taxi.

Uber's business model is the best when compared to any other ride sharing market.

I hope you find this information helpful in any decisions you make in the near future.

Sincerely,

Brayton Norwood

Dear PSC,

After hearing that you banned Uber in SC, I was extremely disappointed. As a tax paying American citizen, there are rights that I have and believe in. I also believe that as the PSC you have an obligation to uphold your commitment to South Carolinians.

While DUI crackdowns continue to increase, you want to take away one of the only cost effective ways for citizens not to drive under the influence? It sounds like money is what drove this ban. Are you going to let South Carolinians die from alcohol related deaths? Are you going to stop people for making the right decision to not drink and drive?

A decision to ban Uber was not yours to make. It is the people's choice. While Uber has caught some flack and has experienced setbacks, for the most part it has been a brilliant service that protects American citizens from themselves.

Please overturn your decision and bring Uber back to SC.

Regards,

Dear SC PSC,

Very disappointed in your ruling to have Uber cease and desist doing business. I thought SC was a free market thinking state, I for one use Uber when I visit my beach house in IOP, I am not looking forward to using the rude, stinking cabs and cabbies again, but I guess their unions/lobbyists won out. Please reconsider.
